

Butterfly Class  
Spring Term 2 2016  
Mrs Jennings and Mr Dallison

*Mathematics: In the second half of Spring Term, we will develop our understanding of position and direction. The children will also work on measures including capacity. To end the term, we will work hard on our ability add and subtract mentally.*

*PSHE and R.E.*

*The children will have regular PSHE sessions that will include the importance of listening to others.*

*Being Creative! Our topic this term will provide many opportunities to be creative. We will make a variety of puppets to use in our role play area.*

*Knowledge and Understanding:  
Our topic is: - 'Into the Woods' throughout this half term, we will explore the world of woodland areas. This topic lends itself nicely to exploring fairy tales in more detail. We will also answer the children's questions on how plants grow and what is required for them to do so. We will also find out about the habitats of animals that live in the woods. As part of our topic we will look to involve parents where possible and hope to hold a Teddy Bears Picnic. Finally, we will visit Mansfield Museum on our educational visit. The trip will be a great experience for the children to learn more about 'Into the Woods'.*

*Communication, Language and Literacy:  
This topic is excellent for developing the Communication, Language and Literacy of the children. We will have many opportunities to develop writing skills by being imaginative in the role play areas.*

*Computing: This term we continue to develop our Bee-Bot skills and further understand programming.*

*Getting Active and Being Physical! This topic is great for exploring the outdoors. We will have many focussed learning opportunities linked to the outdoors*
