

Curriculum Map

Name of Class Teacher: Mrs C Turner

Year Group: 5 Planets

Date: January 2016

Mathematics: Developing a deeper understanding of decimal numbers, learning rules of divisibility and understanding the properties of different triangles as well as becoming more secure with different measurements, make up this term's Maths.

Topic: We will be looking at the change-over from Romans to Anglo Saxons and what the Dark Ages really meant. We will also be looking at different lifestyles in Brazil as part of a Geography project investigating life in other continents.

English: We will be using personification in poetry and we will be studying the work and life of one particular author – Michael Morpurgo is the chosen author and we have numerous books to enjoy. We will be writing a biography as well as using his work to write different genres.

Science: This term we will be studying the different Properties of Materials including hardness, solubility, transparency and thermal and electrical conductivity.

Computing: We will continue to work on coding skills, using Kodu, Scratch and Rapid Router.

P.E.: Mr Woolley will be continuing to coach us but we will probably be inside for the some the lessons.

PSHE and R.E.
Continuing our study of Judaism, we will finish by using drama to recognise and remember Holocaust Memorial Day. We will also look at the lives of Inspirational People – Mother Theresa and Ghandi.

Art, Design and Technology: We will be looking at the work of a number of different artists – Monet and Hockney among them.
