

Curriculum Map

Name of Class Teacher: Mrs C Turner

Year Group: 5 Planets

Date: March 2016

Mathematics: As well as understanding four different calculation methods, we are going to be doing geometry work – looking at polygons and their properties and investigating fractions – fractions of numbers, improper fractions and using this knowledge to problem solve.

Topic:

We will also be looking at different lifestyles in Brazil as part of a Geography project investigating life in other continents. We will be going on a trip to Perlethorpe to further investigate life in World War 1.

PSHE and R.E.

Our Inspirational People study is continuing and we hope to look at the life of William Booth and how his beliefs impacted on what he did.

English: We are now reading *The Butterfly Lion* and using it to help us write in a range of different genres. We are also using a planning sheet to help us understand how to plan properly.

Science: We have to finish our Properties of Materials work – looking at reversible and irreversible changes and we will then be starting our Animals and Habitats topic.

Computing: We will continue to work on coding skills, using Kodu, Scratch and Rapid Router.

P.E.: We are using the apparatus but hopefully as the weather improves we will be outside practising athletics skills.

Art, Design and Technology: We will be looking at the work of a number of different artists – Monet and Hockney among them.
